

Puff House

Puff House is a premium brand of e-cigarettes produced with patented production technology, which ensures a unique taste and perfect smoking pleasure. It has sufficient performance and an elegant design. Production takes place without the use of tobacco, which eliminates unwanted trace elements of smoking, tobacco impurities and tar.

Refills with nicotine salt or nicotine-free refills are used instead. Their careful selection and the detailed production process guarantees high customer satisfaction.

Puff House

Quality

Puff House is a premium brand of e-cigarettes produced with carefully selected high-quality flavors in a designer body and attractive sales packaging.

Product presentation - we offer the production of customized POS displays for our customers. 100% of our stands are made in Slovakia from recyclable materials using unique presentation designs.

Power

Puff House e-cigarettes have a new cartridge with a battery for up to 800+ puffs for one e-cigarette.

Puff House

References and projects

Project Puff House – **GREEN** line 2023(2Q) -> It is a pilot project in CZ for the purpose of collecting used PuffHouse e-cigarettes intended for recycling. With this process, we significantly reduce the environmental burden and contribute to proper recycling.

In 2022, more than 1,000,000 units of the Puff House brand were sold
